Vart är vi på väg?

Welcome to the Inpera public roadmap!

We are working on giving you more transparency and insight to what we are prioritising building to help you with your assessment needs. This roadmap is a first step towards that and we strive to continuously improve our transparency and predicability.

Please feel free to give feedback on the improvements on the board and to the overview itself by commenting on this card.

Under exploration - improvements that have been brought up, however yet to be validated and planned

Planned - improvements that have been validated and will enter our prioritisation process. We will indicate when we envision to make the improvement available, however timeline is uncertain.

In progress - improvements that we are currently working on and timeline is more certain, however, unexpected events can always shift the release date.

In beta - improvements that are currently being tested by customers. Release pending testing and prioritisation.

Released - improvements that has been launched. Our release notes can be [seen here](#).

Thank you!

Varför får vi inga leveransdatum?

- Krav från kontrakt
- Trender inom sektorn
- Förbättringsförslag
- Utveckling sker successivt - många nåsögon att passera
- Covid gav upphov till att andra krav prioriterades
- Utvecklarteam i Ukraina

Anteckningar - studenten

- Bygger på samma teknik som kommentarer och anteckningar
- Befinner sig i betatestning
- Kontakta Service Desk om ni vill delta

The screenshot shows a web-based interface for a student taking a test. At the top, it says "Candidate ID" and "7 remaining". The main area displays a question numbered "7" with a block of Lorem Ipsum text. Below the text, there is a section titled "Fill in your answer here" with a rich text editor toolbar containing options for bold, italic, underline, strikethrough, link, unlink, bulleted list, numbered list, indent, outdent, link, unlink, and a help icon. To the right, a "Notes" sidebar is visible, showing a note titled "7 quis pharetra lorem vestibulum ac" with the content "Need to keep this in mind!" and a "Delete" button. Below that, another note titled "7 Donec congue sed nulla eget pretium" is partially visible with the content "Start typing your note" and another "Delete" button. The interface includes standard navigation icons like back and forward arrows at the bottom right.

Assessment paths

Support more complex assessment forms where multiple educational activities, with their own test settings, can be marked individually but graded as a whole.

- Ni är inbjudna att delta i beta-testning, planerat att starta i sommar
- Funktioner kommer att släppas gradvis under tiden
- Kommer vara på engelska under testningen
- SUNET instans/SUNET testinstans

Order ▾	Name
1 ☰	<input type="text" value="Test 1"/>
2 ☰	Test 2
3 ☰	Test 3
4 ☰	Test 4
5 ☰	Test 5
<input style="float: right;" type="button" value="Add test"/>	

Matrisbedömning

- Mallar för Nivå och kriterier
- Bedömningen mer konsekvent
- Underlättar för oerfarna bedömare
- Slipper “missa” ett kriterium

Predefined and reusable rubrics

SUSANNE KLUNGTVEIT | Posted on November 2021

We are exploring creating rubrics that can be reused across questions and tests as well as predefined on the marketplace. Both quantitative and qualitative rubrics are being investigated.

We are starting to work on this in Q1 2022, with first delivery depending after Discovery (user needs analysis, design & scope) phase done.

Criteria	1 Unacceptable	2 Acceptable	3 Good/Solid	4 Exemplary
Clarity of criteria	Criteria being assessed are unclear, inappropriate and/or have significant overlap	Criteria being assessed can be identified, but are not clearly differentiated or are inappropriate	Criteria being assessed are clear, appropriate and distinct	Each criteria is distinct, clearly delineated and fully appropriate for the assignment(s)/course
Distinction between Levels	Little/no distinction can be made between levels of achievement	Some distinction between levels is evident, but remain unclear	Distinction between levels is apparent	Each level is distinct and progresses in a clear and logical order
Reliability of Scoring	Cross-scoring among faculty and/or students often results in significant differences	Cross-scoring by faculty and/or students occasionally produces inconsistent results	There is general agreement between different scorers when using the rubric (<i>e.g. differs by less than 5-10% or less than ½ level</i>)	Cross-scoring of assignments using rubric results in consistent agreement among scorers
Clarity of Expectations/ Guidance to Learners	Rubric is not shared with learners	Rubric is shared and provides some idea of the assignment/ expectations	Rubric is used to explicitly introduce an assignment and guide learners	Rubric serves as primary reference point for discussion and guidance for course/assignment(s) as well as evaluation of assignment(s)
Support of Metacognition (Awareness of Learning)	Learners do not see/know of the rubric	Rubric is shared but no further reference is made to it in the course/ assignment(s)	Rubric is shared and identified as a tool for helping learners to understand what they are learning through the assignment/ in the course	Rubric is regularly referenced and used to help learners identify the skills and knowledge they are developing throughout the course/ assignment(s)
Engagement of Learners in Rubric Development/ Use *	Learners are not engaged in either development or use of the rubrics	Learners offered the rubric and may choose to use it for self assessment	Learners discuss and offer feedback/input into the design of the rubric, and are responsible for use of rubrics in peer and/or self-evaluation	Faculty and learners are jointly responsible for design of rubrics and learners use them in peer and/or self-evaluation

*Considered optional by some educators and a critical component by others

Scoring chart: 0 - 10 = needs improvement 11 - 15 = workable 16 - 20 = solid/good 21 - 24 = exemplary
