HSM Appliance Configuration

Document Information

Namn	HSM Appliance Configuration
Version	1.0
Editor	Leif Johansson
Date	2014-03-20

Purpose and scope

This process documents configuration changes to the HSM appliance that do not change properties of the security module. Configuration steps include network configuration, appliance access configuration, configuration for logging, time synchronization etc.

Governing policies

This procedure is governed by the following policies:

- SUNET Key Management Policy (SUNET KMP)
- SUNET Asymmetric HSM Service Key Management Practice Statement (SUNET HSM KMPS)

Roles

Number of Persons	Role Name	Responsibilities
