Power Learner Potential

1EdTech

Sunet är medlem i 1EdTech Consortium, en organisation som fokuserar på att ta fram **standards** för att underlätta **integration** mellan olika system och digitala lösningar inom **utbildningssektorn**

Varför standarder?

“to enable an open, trusted, and innovative edtech ecosystem”

<https://www.1edtech.org/standards/details>

Tänk på din vardag

En meter är en meter, rött trafikljus är stanna, https står för säkerhet. MEN varför olika batterier för olika verktyg och varför alla dessa sladdar?

Göra livet enklare

Öppna standarder: säker, snabb och pålitlig. OCH interoperabilitet
och leverantörsberoende

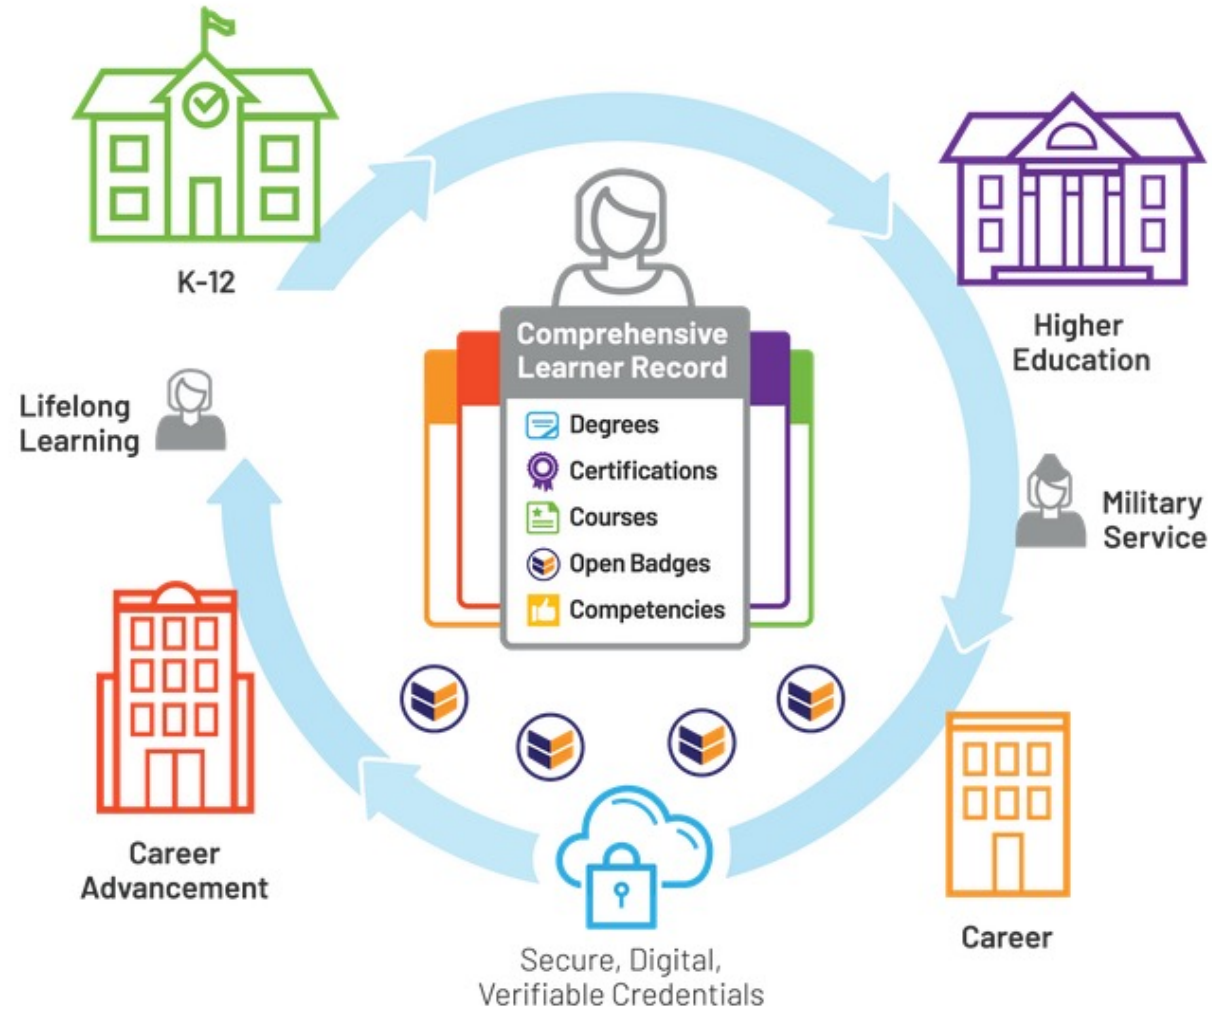

Upphandling

Kräv vanliga standarder som till exempel LTI, LIS, och xAPI från 1EdTech och andra som SAML. Var försiktig men att kräva för många

Handlar om följande: **lås upp data och ge användare åtkomst:** autentisering, skräddarsydda data, utbyte av datasets, användning av applikationer
