

Getting Started with SWAMID

The process to join the SWAMID federation typically begins with the decision to set up an **Identity Provider (IdP)** or a **Service Provider (SP)**. For information on eduroam please go to www.eduroam.se.

Research and education institutions (eg universities) typically should **become a member of SWAMID** whereas an organisation providing services that need to consume identities from SWAMID members do not need to become a member or sign contracts with SWAMID.
