

# Being invited to sign a document in eduSign

1. Go to [edusign.sunet.se](https://edusign.sunet.se) and login to the service by clicking on the blue login button.

2. If this is the first time you login to eduSign you will be asked to search for the organisation you are affiliated with. All organisations within [eduGAIN](#) (including [SWAMID](#)) can login to eduSign.

- a. If you are not affiliated with an organisation within eduGAIN you can create an [eduID account](#) and connect the e-mail you were invited with to that eduID. [eduID](#) is an identity service offered by Sunet that is part of SWAMID and can therefore also be used to login to eduSign. If using eduID to login to eduSign you should search for "eduID Sweden" as institution in the search box shown in the picture above.

eduID is easier and safer login.

3. Once you have logged in to eduSign you need to Preview and approve the document you have been invited to sign to ensure that the document is correct.

6. After you have signed the document you will be able to download the signed document. Note that this is not necessarily the final version of the signed document as other parties might have to sign the document too. Also note that once you have signed the document and refresh the application (e.g. refresh the browser) the document will disappear from your eduSign account. It is only the person who invited you that will keep the final document in their eduSign account and are responsible for distributing it.
