

SWAMID Identity Assurance Profiles

Summary

The SWAMID federation is based on a technology independent policy, a set of assurance profiles and a set of *technology profiles*. These documents are available at www.swamid.se.

Introduction

The [SWAMID Policy](#) defines an Identity Assurance Profile this way:

An Identity Assurance Profile describes levels of trust in claims and organisations. An Identity Assurance Profile allows a Relying Party to determine the degree of certainty of the identity of a Subject and its personal data. Identity assurance is to a large extent independent of the technology used to convey Claims of identity.

Levels of Assurance
